THE CINC APPROACH.

- ✓ CINC manufactured switchboards in house reducing time and costs
- ✓ Integrated fit outs undertaken in conjunction with the base build resulted in a reduced build time
- ✓ Self delivery of UG reticulation, MSB and DB manufacture, Rate 2 Energex works with general lighting and power created a seamless electrical delivery
- ✓ Incorporating value engineering solutions resulted in a reduction of power outages required to reroute existing power supply to the adjacent leagues club
- ✓ Setout modelling enabled services to be positioned to suit Coles exacting standards
