

AUSTRALIAN FEDERAL POLICE BUILDING

Electrical Data & Security Services

Location

Lobelia Circle

Client

Matrix Projects QL D
PTY LTD

Contract Period

52 Weeks

Completion Date

December, 2012

Project Value

\$1,600,000.00

Electrical Data & Security Services are currently involved in the construction of the new Australian Federal Police building located in Lobelia Circle, close to the Brisbane Airport. The structure will be a six (6) storey commercial building including an underground car park and rooftop access.

EDSS will be involved in the entire fit out of all electrical, security, fire and data works within the building including the installation of an advanced lightning protection system and standby generator system.

This modern complex will be built to an energy efficient 4½-star Green Star rating and is expected to be completed by late 2012.
