

Spanns Road Augmentation.

The CINC Approach.

- ✓ Progressively updated drawings & operations & maintenance manuals throughout the project;
- ✓ Developed a phased construction plan that allowed for continued operation of critical systems during the upgrade, avoiding costly downtime;
- ✓ CINC manufactured switchboards in house reducing time & costs;
- ✓ Conducted ongoing testing & adjustments, ensuring that all systems met operational & safety standards throughout the project;
- ✓ Implement a proactive risk management strategy, identifying potential issues early & addressing them to prevent project disruptions & ensure timely completion.

CONTRACT VALUE

\$328,400.00

LABOUR

538 HRS

TRAINING

102 HRS

CLIENT

DOWNER UTILITIES AUSTRALIA
